Just Like Eve's Apple.

A fruit supposed to bear the mark of
Eve's teeth is one of the many botani-
cal curiosities of Ceylon. The tree on
which it grows is known by the signifi-
cant name of "the forbidden fruit," or
"Eve's apple tree."

The blossom has a very pleasant
scent, but the really remarkable fea-
ture of the tree, the one to which it
owes its name, is the fruit. It is beau-
tiful and hangs from the tree in a pec-
uliar manner.

Orange on the outside and deep crim-
son within, each fruit has the appear-
ance of having had a piece bitten out of
it. This fact, together with its poi-
sonous quality, led the Mohammedans
to represent it as the forbidden fruit of
the garden of Eden and to warn men
against its noxious properties.

The mark upon the fruit is attributed
to Eve. Why the bite of Adam did not
also leave its mark is not known, but
as only one piece seems to be missing
its loss is ascribed to the woman.—
Youth's Companion.

Banks Ready For Emergencies.

To meet sudden and unexpected de-
mands upon banks a large sum is
kept ready for use. The average large
bank—say with total assets of \$20,000-
000—is prepared by four lines of de-
fense to resist sudden attack. In the
vault or safe about \$500,000 in bank
bills is always on hand, back of that is
a cash reserve of perhaps \$1,500,000 de-
posited in various business banks sub-
ject to instant call, back of that again
is perhaps \$8,000,000 in United States
and other gilt edged securities imme-
diately marketable, and the fourth and
last line of defense and to be retired
upon only in extreme distress is \$6,000-
000 or \$8,000,000 in bonds and mort-
gages, on which the mortgagees will be
hurriedly called to make a payment on
account if the bank is pushed to ex-
tremities. With such resources dis-
aster would seem impossible, though it
has come to the best fortified institu-
tions.—Bookkeeper.

Major Alexandre Alberto da Rocha
Serpa Pinto, the African explorer, is
dead. He was born April 30, 1846, and
contributed largely to contemporary
knowledge of African geography.

The czar of Russia has rewarded the
physicians in attendance upon him by
conferring upon Dr. Hirsch the order
of Alexander-Newski and by making
Professor Popoff his body physician
and Dr. Tichonoff honorary medical
adviser.

Dr. S. Hoepfner, a well known con-
sulting engineer and chemist of Cana-
da, who died the other day in Denver,
was the inventor of an electrolytic
treatment of refractory ores which is
in use in many smelters in this coun-
try and Europe.

General Michael J. Bulger, who died
the other day at Dadeville, Ala., was
the oldest living Confederate veteran,
being 100 years of age. He led the fight
against secession at the famous Mont-
gomery convention and when defeated
offered his sword to the south.

"Whist," of the Paris Figaro, who
for many years signed remarkable
articles on general European politics,
is dead. The bearer of the pseudonym
was M. Jules Valfrey, who left the dip-
lomatic career after the fall of the De
Broglie ministry in 1877.

Claude Anson, who will shortly mar-
ry Lady Clodagh Beresford, sister of
the Marquis of Waterford, has for
some years been ranching in Texas.

After the marriage the young couple
will go to Texas to make their home.
Mr. Anson is a younger brother of the
Earl of Lichfield and is now 36 years
old.

THE TROTTING CIRCUIT.

The \$4,000 yearling pacer Gordon
Prince will be trained at Lima, O.

Wiltwood, 2:20 1/4, will be prepared for
the half mile tracks next year by
George Schoenberger, Warren, O.

The fastest horse owned at Jones-
ville, Mich., is Johnny C, 2:10 1/4, pac-
ing. This gelding has shown a trial
mile in 2:09 1/4.

When Gratt, the 3-year-old son of
Grattan, 2:13, took a record of 2:19 1/4
at Paola, Kan., he was driven by a boy
that had never driven in a race before.

J. T. Desroff, Franklin, O., who
gave a new record of 2:14 1/4 to Nicholas
B the past season, thinks the horse a
sure candidate for the 2:10 list of 1901.

Bessie M., 2:20 1/4, is a new addition
to the Cleveland matinee brigade and
will be driven by M. A. Bradley. She
took her record in the fourth heat of
the 2:20 class, trotting, at Marysville,
O., Oct. 4.

Sidney Pointer, 2:08 3/4, is now the
property of W. H. Anderson, Kempt-
ville, Ont., and will be driven by W. H.
Moffat, who appears to be the only
man who can manage this rather vi-
cious horse.

Dr. Mitchell Walter, South Bethle-
hem, Pa., will breed his pacing mare
Sister Nettle, 2:18 1/4, to Allori, by Allor-
ton, 2:09 1/4. Dr. Walter has a filly, Bora
Rosie, coming 3 years old, that is entered
dam by Cuyler 100, that is entered in
\$42,000 worth of futurities.—Horseman.

Incomplete.

"I suppose Peckman is happy, now
he has a handsome wagon."

"Well, I don't know. What he needs
to complete his happiness is a nagless
wife."—Philadelphia Bulletin.

Port Orange

Mr. Allen Trowell is visiting Mr. J. B.
Case.

Frank Sparkman drove over to De-
Land this week.

The Port Orange Hotel received a car
load of coal this week.

Mrs. Fair and the children returned
Monday from visiting her parents near
DeLand.

Mrs. Fair and the children left for Oak
Hill Thursday. Mrs. Fair is the principal
of the school there.

Mrs. Dangerfield and her daughter,
Mrs. Johnson, have moved to Daytona
to reside for a time.

Capt. Alexander and family returned
to their home at Lake Beresford. We
were sorry to have them leave.

Capt. Fozzard is going to have built a
pier in front of his cottage, on River
street, and a carriage house on the lot.

Mr. Happersett, representing the S. B.
Hubbard Co., of Jacksonville, was in
town Wednesday, calling on Capt. Fo-
zard, our merchant.

F. O. Sparkman has had new machinery
of the best make put in his syrup manu-
factory, so that his syrup this winter
will be better than ever.

Mr. Terwilliger, of St. Augustine, was
in town this week. Mr. T. is one of the
orange buyers who used to buy the crops
around here in the old time.

You may bridle the appetite, but you
cannot bribe the liver to do its work
well. You must be honest with it, help
it along a little now and then with a
dose of Hordley, the best liver regulator.
Price 50 cts. Dr. J. M. Jones.

Chopin on Piano Fingering.

This is from a fragment of piano fin-
gering left by Chopin: "No one notices
inequality in the power of the notes of
a scale when it is played very fast and
equally as regards time. In a good
mechanism the aim is not to play ev-
erything with an equal sound, but to
acquire a beautiful quality of touch
and a perfect shading."

"For a long time players have acted
against nature in seeking to give equal
power to each finger. On the contrary,
each finger should have an appropriate
part assigned it. The thumb has the
greatest power, being the thickest fin-
ger, and the freest. Then comes the lit-
tle finger, at the other extremity of the
hand. The middle finger is the main
support of the hand and is assisted by
the first. Finally comes the third, the
weakest one."

"As to this Slavonic twin of the middle
finger some players try to force it with
all their might to become independent,
a thing impossible and most likely un-
necessary. There are, then, many dif-
ferent qualities of sound, just as there
are several fingers. The point is to
utilize the differences, and this, in other
words, is the art of fingering."—Hun-
ker's "Chopin, the Man and His Mu-
sic."

BANNER SALVE, the most healing salve in the world.
